RESEARCH

Fellowship

Overview Assisted Dr. William Gradishar in the development and accrual of a Phase II clinical trial examining the antitumor effects of high-dose estrogen in postmenopausal women with hormone-dependent metastatic breast cancer after failure of two or more sequential endocrine therapies.

Medical School Research Assistant to Azra Raza, M.D., Director, Leukemia Program
Rush Cancer Institute, Chicago, IL

Overview Assisted in ongoing laboratory projects aimed at developing a better understanding of the etiology and natural progression of the myelodysplastic syndromes, leading to novel therapeutic strategies to combat these disorders.

Undergraduate Research Assistant to Janice Juraska, Ph.D., Department of Psychology
University of Illinois, Urbana-Champaign, IL

Overview Investigated the neuroanatomical basis for cognitive diversity and sex differences in human behavior.

PUBLICATIONS

Brown J, Von Roenn J, Gradishar W, et al: A phase II study of the proteasome inhibitor PS-341 in patients with metastatic breast cancer. Proc Am Soc Clin Oncol 22:14s, 2004 (abstr 546)
